A wonderful extended continental breakfast awaits you at the Lazy Cloud Bed & Breakfast! Take your breakfast back to your room and enjoy breakfast in bed on any day while here at the B&B! With trays available, you can make your selection from our breakfast buffet and dine in the privacy of your suite, on one of several patios, or under the shade and shelter of a romantic gazebo! On days when our occupancy is limited, we will prepare a tray and bring it to you!!

Our extended continental breakfast couldn't be any better!! My grandmother's sticky bun recipe has been delighting our guests for over twenty years! Served fresh and hot out of the oven every morning, these mouth-watering pecan rolls are her secret recipe! We also feature a variety of Danish Kringle or

my own apple crisp recipe or delicious breakfast breads served fresh from the kitchen! We prepare our special granola and it is served in addition to Cheerios, Raisin Bran, and Honey Bunches of O's. Hard cooked eggs are always a favorite and are served chilled. You'll have a selection of fresh seasonal fruit, usually consisting of honey dew, cantaloupe, or watermelon — red, green or Concord grapes — strawberries and kiwi. Bananas and oranges also find their way to this fruit selection with string cheese accompany it. On some days we'll prepare another favorite of ours — homemade waffles. Beverages included a selection of juices, regular and decaf coffees, several different teas, water, or milk. And, for those of you with a real morning sweet tooth, let us tempt you with our hot chocolate, complete with whipped cream and marshmallows!
